

**MCARE SERVICE PLANS
SURGICAL WORKPLACES:
TABLES / LIGHTS / CEILING SERVICE UNITS**

Now, more than ever, time is money:

Nowhere is that more evident than in the hospital where equipment reliability is of paramount importance. Patients depend on the hospital for excellent care and support, and the hospital can rely on MAQUET for support plans and services to match different budget requirements designed to keep equipment operating to its potential and within manufacturer's specifications.

Whether the need is a full-service support plan for all maintenance and service

responsibility, or whether training and parts support is required by a full complement of skilled biomedical technicians, MAQUET provides the solution.

MCare plans are designed to help ensure that critical equipment is operational when needed, protecting investment dollars, simplifying maintenance, and extending useful life to minimize the cost of ownership.

MAQUET — The Gold Standard.

EMPOWERING OUR CUSTOMERS

MCARE SERVICE PLANS: GOLD, SILVER, BRONZE

MAQUET MCare offers complete flexibility with a variety of services to meet your needs. Through MCare we provide all services needed throughout the life cycle of your equipment. MCare is our worldwide service concept. No matter what MCare solution you choose, our global network ensures high-quality services for your MAQUET product. Achieve optimum performance and maximize the value of your investment.

The main purpose with maintenance, repair and spare parts is to ensure the product is available at all times. We know that every hour or day a unit is not functioning represents a significant cost for you as a customer. By signing up for one of our MCare service plans, you would reduce the

number of purchase orders, lower the overall purchasing costs, enhance cost predictability and maximize uptime.

More MAQUET MCare benefits for you:

- Priority response
- Local factory-certified Field Service Engineers
- Recertified every 2 years
- Average of 15 years of service experience
- OEM warranted parts
- Specialized proprietary tools/test equipment
- Documentation for JCAHO
- 24/7 technical support
- Service loaner equipment (for eligible equipment)
